MANAGEMENT

Members of the Management during the period and at the date of this report are:

Mr Lucas Ignatius Loh Jen Yuh	General Director
Mr Chan Hong Wai	Chief Financial Officer
Ms Nguyen Thanh Huong	Chief Investment Officier

LEGAL REPRESENTATIVE

The legal representative of the Company during the period and at the date of this report is Mr Nguyen Xuan Quang.

Mr Lucas Ignatius Loh Jen Yuh is authorised by Mr Nguyen Xuan Quang to sign the accompanying consolidated financial statements for nine-month period then ended 30 September 2025 in accordance with the Power of Attorney effective from 31 March 2025.

AUDITORS

The auditor of the Company is Ernst & Young Vietnam Limited.

2. BASIC OF PREPARATION

2.1 Applied accounting Standards and System

The interim consolidated financial statements of the Group expressed in Vietnam dong ("VND") are prepared in accordance with the Vietnamese Enterprise Accounting System and Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
- Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
- Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
- Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
- Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

2. *BASIC OF PREPARATION* (continued)

2.1 Applied accounting Standards and System (continued)

Accordingly, the accompanying interim consolidated balance sheet, interim consolidated income statement, interim consolidated cash flow statement and related notes, including their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

2.2 Applied accounting documentation system

The Group's applied accounting documentation system is the General Journal system.

2.3 Fiscal year

The Group's fiscal year applicable for the preparation of its interim consolidated financial statements starts on 1 January and ends on 31 December.

2.4 Accounting currency

The interim consolidated financial statements are prepared in VND which is also the Group's accounting currency.

2.5 Basic of consolidation

The interim consolidated financial statements comprise the financial statements of the parent company and its subsidiaries for the nine-month period ended 30 September 2025.

Subsidiaries are fully interim consolidated from the date of acquisition, being the date on which the Company obtains control, and continued to be interim consolidated until the date that such control ceases.

The financial statements of subsidiaries are prepared for the same reporting year as the parent company, using consistent accounting policies.

All intra-company balances, income and expenses and unrealised gains or losses resulting from intra-company transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the interim consolidated income statement and within equity in the interim consolidated balance sheet, separately from parent shareholders' equity.

Impact of change in the ownership interest of a subsidiary, without a loss of control, is recorded in undistributed earnings.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks and short-term, highly liquid investments with an original maturity of less than three (3) months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.2 *Inventories*

Inventories comprise development projects undertaken by the Group which are in the work in progress stage and including mainly apartments, town houses and villas for sale under construction and land held for sale.

Apartments, town houses and villas for sale under construction are carried at the lower of cost and net realizable value. Costs include all expenditures including borrowing costs, directly attributable to the development and construction of the apartments, town houses and villas. Net realizable value represents current selling price less estimated cost to complete apartments, town houses and villas, and estimated selling and marketing expenses.

Land held for constructing apartments, town houses and villas which is presented as part of "Inventories" is carried at the lower of cost and net realizable value. Costs include all expenditures including borrowing costs directly related to the acquisition, site clearance, land compensation, and infrastructure construction. Net realizable value represents estimated current selling price less anticipated cost of disposal.

Provision for obsolete inventories

An inventory provision is created for the estimated loss arising due to the impairment of value of inventories owned by the Group, based on appropriate evidence of impairment available at the balance sheet date.

Increases or decreases to the provision balance are recorded into the cost of goods sold account in the interim consolidated income statement.

3.3 *Receivables*

Receivables are presented in the interim consolidated financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables at the balance sheet date which are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expense in the interim consolidated income statement.

3.4 *Fixed assets*

Tangible and intangible fixed assets are stated at cost less accumulated depreciation and amortisation.

The cost of a fixed asset comprises its purchase price and any directly attributable costs of bringing the fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the interim consolidated income statement as incurred.

When fixed assets are sold or retired, any gain or loss resulting from their disposal is (the difference between the net disposal proceeds and the carrying amount) included in the interim consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.4 ***Fixed assets*** (continued)

Land use rights ("LURs")

LURs are recorded as intangible fixed assets if the land is held for use in the production or business, for rental to others by the enterprise and when the Group receives the LUR certificate. The cost of LUR comprises any directly attributable costs of preparing the land for its intended use. LUR with indefinite useful life is not amortised.

The advance payment for land rental, of which the land lease contracts have effectiveness prior to 2003 and the land use rights certificate being issued are recorded as intangible asset according to Circular No. 45/2013/TT-BTC issued by the Ministry of Finance on 25 April 2013 guiding the management, use and depreciation of fixed assets ("Circular 45"). The land use right is amortized over the useful life, except for land use right having indefinite useful life is not amortised.

3.5 ***Leased assets***

Where the Group is the lessee

Rentals under operating leases are charged to the interim consolidated income statement on a straight-line basis over the lease term.

Where the Group is the lessor

Assets subject to operating leases are included as the Group's investment properties in the interim consolidated balance sheet. Initial direct costs incurred in negotiating an operating lease are recognised in the interim consolidated income statement as incurred.

Lease income is recognised in the interim consolidated income statement on a straight-line basis over the lease term.

3.6 ***Depreciation and amortisation***

Depreciation of tangible fixed assets and amortisation of intangible assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	25 - 47 years
Machinery and equipment	5 - 12 years
Means of transportation	6 - 8 years
Office equipment and furniture	3 - 8 years
Computer software	3 - 5 years
Land use rights	47 years
Other assets	3 - 5 years

3.7 ***Investment properties***

Investment properties are stated at cost including transaction costs less accumulated depreciation and amortisation.

Subsequent expenditure relating to an investment property that has already been recognized is added to the net book value of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the Group.

Depreciation and amortisation of investment properties are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	6 - 47 years
Land use rights	47 years

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.7 *Investment properties* (continued)

Investment properties are derecognised when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the assets is recognised in the interim consolidated income statement in the year of retirement or disposal.

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. The transfer from investment property to owner-occupied property or inventories does not change the cost or the carrying value of the property for subsequent accounting at the date of change in use.

3.8 *Borrowing costs*

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds and are recorded as expense during the period in which they are incurred, except to the extent that they are capitalized as explained in the following paragraph.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

3.9 *Prepaid expenses*

Prepaid expenses are reported as short-term or long-term prepaid expenses on the interim consolidated balance sheet and amortised over the year for which the amounts are paid or the year in which economic benefits are generated in relation to these expenses.

The following types of expenses are recorded as long-term prepaid expense and are amortised to the interim consolidated income statement:

- Tools and consumables with large value issued into construction and can be used for more than one year;
- Show houses;
- Commission fees; and
- Other long-term prepaid expenses with associated economic benefits generated for more than one (1) year and being amortised over the period of no more than three (3) years.

3.10 *Business combinations and goodwill*

Business combinations are accounted for using the purchase method. The cost of a business combination is measured as the fair value of assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange plus any costs directly attributable to the business combination. Identifiable assets and liabilities and contingent liabilities assumed in a business combination are measured initially at fair values at the date of business combination.

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost the business combination over the Group's interest in the net fair value of the acquirer's identifiable assets, liabilities and contingent liabilities. If the cost of a business combination is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the interim consolidated income statement. After initial recognition, goodwill is measured at cost less any accumulated amortization. Goodwill is amortised over a maximum period of 10 years on a straight-line basis. The parent company conducts the periodical review for impairment of goodwill of investment in subsidiaries. If there are indicators of impairment loss incurred is higher than the yearly allocated amount of goodwill on the straight-line basis, the higher amount will be recorded in the interim consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.11 Investments

Investments in associates

The Group's investment in its associate is accounted for using the equity method of accounting. An associate is an entity in which the Group has significant influence that is neither subsidiaries nor joint ventures. The Group generally deems they have significant influence if they have over 20% of the voting rights.

Under the equity method, the investment is carried in the interim consolidated balance sheet at cost plus post acquisition changes in the Group's share of net assets of the associates. Goodwill arising on acquisition of the associate is included in the carrying amount of the investment. Goodwill is not amortised and subject to annual review for impairment. The interim consolidated income statement reflects the share of the post-acquisition results of operation of the associate.

The share of post-acquisition profit (loss) of the associates is presented on face of the interim consolidated income statement and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends/profit sharing received or receivable from associates reduces the carrying amount of the investment.

The financial statements of the associates are prepared for the same reporting period and use the same accounting policies as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Investment in jointly controlled entities

The Group's investments in jointly controlled entities are accounted for using the equity method of accounting. Under the equity method, the investment is carried in the interim consolidated balance sheet at cost plus post joint venture changes in the Group's share of net assets of the jointly controlled entities. The interim consolidated income statement reflects the share of the post-acquisition results of operation of the jointly controlled entities.

The share of profit (loss) of the jointly controlled entities is presented on face of the interim consolidated income statement and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividend/profit sharing received or receivable from jointly controlled entities reduce the carrying amount of the investment.

The financial statements of the jointly controlled entities are prepared for the same reporting period and use the same accounting policies as the Group. Where necessary, adjustments are made to bring the accounting policies in the line with those of the Group.

Investments in other entities

Investments in other entities are stated at their acquisition costs.

Held-to-maturity investments

Held-to-maturity investments are stated at their acquisition costs. After initial recognition, held-to-maturity investments are measured at recoverable amount. Any impairment loss incurred is recognised as expense in the interim consolidated financial statements and deducted against the value of such investments.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.12 Payable and accruals

Payable and accruals are recognised for amount to be paid in the future for goods and services received, whether or not billed to the Group.

3.13 Accrual for severance allowance

The severance pay to employee is accrued at the end of each reporting period for all employees who have been in service for more than 12 months up to 31 December 2008 at the rate of one-half of the average monthly salary for each year of service up to 31 December 2008 in accordance with the Labour Code and related implementing guidance. The average monthly salary used in this calculation will be revised at the end of each reporting year following the average monthly salary of the 6-month period up to the reporting date. Increases or decreases to the accrued amount other than actual payment to employee will be taken to the interim consolidated income statement.

This accrued severance pay is used to settle the termination allowance to be paid to employee upon termination of their labour contract following Article 48 of the Labour Code

3.14 Provision

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provision for warranty obligation of completed project is estimated of 5% on value of project based on the specification of each project and actual experience.

3.15 Foreign currency transactions

Transactions in currencies other than the Group's reporting currency of VND are recorded at the actual transaction exchange rates at transaction dates which are determined as follows:

- transactions resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection; and
- transactions resulting in liabilities are recorded at the selling exchange rates of the transaction of commercial banks designated for payment.

At the end of the period, monetary balances denominated in foreign currencies are translated at the actual transaction exchange rates at the balance sheet dates which are determined as follows:

- monetary assets are translated at buying exchange rate of the commercial bank where the Group conducts transactions regularly; and
- monetary liabilities are translated at selling exchange rate of the commercial bank where the Group conducts transactions regularly.

All foreign exchange differences are taken to the interim consolidated income statement.

3.16 Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss upon purchase, sale, issue or cancellation of the Group's own equity instruments.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.17 Appropriation of net profit

Net profit after tax (excluding negative goodwill arising from a bargain purchase) is available for appropriation to investors after approval by appropriate level of authority, and after making appropriation to reserve funds in accordance with the Group's Charter and Vietnam's regulatory requirements.

The Group maintains the following reserve funds which are appropriated from the Group's net profit as proposed by the Board of Management and subject to approval by shareholders at the annual general meeting.

- *Investment and development fund*

  This fund is set aside for use in the Group's expansion of its operation or of in-depth investments.

- *Other funds belonging to owners' equity*

  Subsidised funds for operating activities, projects include remuneration schedule fund and operating budget fund.

- *Bonus and welfare fund*

  This fund is set aside for the purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefits, and presented as a liability on the interim consolidated balance sheet.

3.18 Earnings per share

Basic earnings per share amount is computed by dividing net profit attributable to ordinary equity holders of the Group (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit after tax attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

3.19 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Revenue from construction contracts

Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the amount of work completed as certified by customers at the balance sheet date. Variations in contract work and claims are included to the extent that they have been agreed with the customer.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that are probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.19 *Revenue recognition* (continued)

Sale of villas, town houses, and apartments

For villas, town houses and apartments sold after completion of construction, the revenue and associated costs are recognised when the significant risks and rewards of ownership of the villas, town houses, or apartments have passed to the buyers.

Sale of residential plots and related infrastructure

Revenue from the sale of residential plots and related infrastructure are recorded at the total consideration received when residential plots and related infrastructure are transferred to the customers.

Rendering of other services

Revenue is recognised when services have been rendered and completed.

Interest

Interest is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Dividend is recognised when the Group's entitlement as an investor to receive the dividend is established.

Rental income

Rental income arising from operating leases is accounted for on a straight line basis over the terms of the lease in the consolidation income statements.

3.20 *Tax*

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the balance sheet date.

Current income tax is charged or credited to the interim consolidated income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Group to offset current tax assets against current tax liabilities and when the Group intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the interim consolidated balance sheet date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the related transaction affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised, except where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.20 ***Tax*** (continued)

Deferred tax (continued)

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are re-assessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled based on tax rates and tax laws that have been enacted at the balance sheet date.

Deferred tax is charged or credited to the interim consolidated income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Group to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either the same taxable entity.

3.21 ***Related parties***

Parties are considered to be related parties of the Group if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Group and other party are under common control or under common significant influence. Related parties can be enterprise or individual, including their close family members.

3.22 ***Segment information***

A segment is a component determined separately by the Group which is engaged in providing products or related services (business segment), or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments. As the Group's revenue and profit are derived mainly from real estate business in Vietnam while other sources of revenue are not material as a whole. As a result, the Group's management is of the view that there is only one segment for business and geography and therefore presentation of segmental information is not required.

4. CASH AND CASH EQUIVALENTS

VND

	30 September 2025	*31 December 2024*
Cash	7,565,706,653	5,844,510,019

Net carrying amount:			
31 December 2024	15,036,068,120	300,872,607,272	315,908,675,392
30 September 2025	15,006,478,031	278,322,421,352	293,328,899,383

The fair value of the investment properties had not yet been formally assessed and determined as at 30 September 2025. However, given the present occupancy of these properties and the market value of the land, it is management's assessment that these properties' fair values are higher than their carrying values at the balance sheet date.

34. EARNINGS PER SHARE

Basic earnings per share amounts are calculated by dividing net profit after tax for the period attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund and remuneration of the Board of Directors) by the weighted average number of ordinary shares outstanding during the period.

The following reflects the income and share data used in the basic earnings per share computations:

	For the nine-month period ended 30 September 2025	*For the nine-month period ended 30 September 2024*
Net profit after tax *(VND)*	**353,649,332,361**	**15,479,529,183**
Less: Bonus and welfare fund and remuneration of the Board of Directors (VND)	*(22,682,466,618)*	*(696,578,813)*
Net profit attributable to ordinary shareholders *(VND)*	**330,966,865,743**	**14,782,950,370**
Weighted average number of ordinary shares during the period *(shares)*	385,075,304	384,777,471
Weighted average number of ordinary share adjusted for the effect of dilution	**385,075,304**	**384,777,471**
Earnings per share *(VND)*		
Basic earnings per share	*859*	*38*
Diluted earnings per share	*859*	*38*

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of these interim consolidated financial statements.

35. EVENT AFTER THE BALANCE SHEET DATE

There is no matter or circumstance that has arisen since the balance sheet date that requires adjustment or disclosure in the accompanying interim consolidated financial statements of the Group.
